INDEPENDENT AUDITORS' REPORT

Board of Directors
Hardee Soil and Water Conservation District
Wauchula, Florida

Report on the Financial Statements
We have audited the accompanying financial statements of the governmental activities and the major fund of the Hardee Soil and Water Conservation District (District), as of and for the year ended September 30, 2016, and the related notes to the financial statements, which collectively comprise the entity's basic financial statements as listed in the table of contents.

Management’s Responsibility for the Financial Statements
Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors’ Responsibility
Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors’ judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity’s internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.
Board of Directors
Hardee Soil and Water Conservation District

Opinions
In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and the major fund of the District as of September 30, 2016, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis-of-matter
As discussed in Note 6 to the financial statements, expenditures were overstated in the prior year and a prior period adjustment has been posted to restate beginning fund balance and net position. Our opinion is not modified with respect to that matter.

Other Matters
Required Supplementary Information
Accounting principles generally accepted in the United States of America require that the management’s discussion and analysis on pages 4-6 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management’s responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information
Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District’s basic financial statements. The schedule of expenditures of state projects is presented for purposes of additional analysis as required by Chapter 10.550, Local Governmental Entity Audits, Rules of the Auditor General of the State of Florida, and is not a required part of the basic financial statements.

The schedule of expenditures of state projects are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.
Other Reporting Required by Government Auditing Standards

In accordance with Government Auditing Standards, we have also issued our report dated June 26, 2017 on our consideration of the District’s internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the result of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the District’s internal control over financial reporting and compliance.

CliftonLarsonAllen LLP
Lakeland, Florida
June 26, 2017
The Hardee Soil and Water Conservation District's (the “District”) management discussion and analysis is intended to provide a narrative introduction to the basic financial statements and an analytical overview of the District’s financial activities for the fiscal year ending September 30, 2016.

OVERVIEW OF THE FINANCIAL STATEMENT
The basic financial statements consist of three components: 1) government-wide financial statements providing information about the activities of the District as a whole; 2) fund financial statements and, 3) notes to the financial statements.

Government-wide Financial Statements – The government-wide financial statements are designed to provide a broad overview of the District’s finances in a manner similar to a private-sector business. The government-wide statements provide information about the District’s financial status as a whole. These statements include details of general revenue during the year and a breakdown by category of expenses. The statements include all assets and liabilities using the accrual basis of accounting. This means that all of the current year’s revenues and expenses are taken into account regardless of when cash is received or paid.

These two statements report the District’s net position and changes in net position. The net position – the difference between assets and liabilities – is an important measure of the District’s financial health.

Fund Financial Statements – The fund financial statements provide a detailed look at the District’s general fund. The District, like all government entities, uses fund accounting to ensure and reflect compliance (or non-compliance) with finance related legal requirements. The District uses one fund, a governmental general fund, which focuses on 1) how cash and other financial assets, that can readily be converted to cash, flow in and out and 2) the balances left at year-end that are available for spending. Consequently, the general fund statements provide a detailed short-term view that indicates whether there are more or fewer financial resources that can be spent in the near future to finance the District’s programs.

FINANCIAL HIGHLIGHTS
As noted above, net position may serve, over time, as a useful indicator of a government’s financial position. The following schedules provide a summary of assets, liabilities, and net position and changes in net position of the District:

</tbody>
</table>
Total assets decreased by $241,134 from the prior year due to a break from one grant closing and the other not beginning until the next fiscal year which allowed open invoices from the state to be paid.

Total liabilities decreased by $331,620 from the prior year due to a break from one grant closing and the other not beginning until the next fiscal year so invoices were received and paid prior to fiscal year-end.

Total revenue increased by $487,601 from the prior year due to more projects being completed.

Total expenditures increased by $432,496 from the prior year due to increased access to grant funding from larger grant amounts which provided larger advances which supplied a more favorable cash flow. This allowed for less of a lag time between projects and more projects could be completed.

The District has no capital assets or long-term debt.

The District’s net position is unrestricted.

DISTRICT HIGHLIGHTS

- We were able to purchase a 2016 GMC truck for the technician with monies from FDACS contract. It sure is a lot easier than the tech having to use their own vehicle.
- We also have been able to sponsor a working group town meeting between the public and Soil and Water District, NRCS, FSA, and the Extension Service.
- We hope to involve more students and young people in the future.

BUDGETARY HIGHLIGHTS

Budget and actual comparison schedules are provided in the Basic Financial statements for the General Fund. The budget and actual comparison schedule shows the original adopted budget, the final revised budget, actual results, and variance between final budget and actual results. After the original budget is approved, it may be revised for a variety of reasons such as unforeseen circumstances or unanticipated revenues.

RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES AND CHANGES IN
FUND BALANCES – BUDGET TO ACTUAL – GENERAL FUND TO THE
STATEMENT OF ACTIVITIES
YEAR ENDED SEPTEMBER 30, 2016

Net Change in Fund Balance - Total Governmental Funds  $ 138,924

In the statement of activities, revenue is reported by the amounts earned during the year. In the Governmental Funds, revenue is recorded instead because payments were not received in the timeframe to be considered available. The amount represents the change in the balance. (83,819)

Change in Net Position of Governmental Activities  $ 55,105

See accompanying Notes to Financial Statements.
NOTE 1  SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Reporting Entity
The Hardee Soil and Water Conservation District (District) was established in 1944 in accordance with Chapter 582.10 of the Florida Statutes. The purpose of the District is to help conserve soil and water resources.

The District, as authorized by Chapter 582 of the Florida Statutes, was created for the purpose of controlling or preventing soil erosion and preventing floodwater and sediment damages, and to further the conservation, development and utilization of soil and water resources and the disposal of water. The District conducts surveys, investigations, research, and demonstrations, within the District’s boundaries in order to foster improvements by which soil and water resources are conserved and utilized.

The accounting policies of the District conform to accounting principles generally accepted in the United States of America as applicable to governments. The following is a summary of the more significant accounting principles and policies used in the preparation of these financial statements.

Basis of Presentation
The District complies with accounting standards established by the Governmental Accounting Standards Board (GASB). The District has implemented GASB Statement No. 34 as amended, Basic Financial Statements-and Management's Discussion and Analysis-for State and Local Governments.

Government-wide and Fund Financial Statements
The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all activities of the District. The District reports only governmental activities; it does not have any business-type activities. Governmental activities are supported largely by operating grants. Operating grants are reported as program revenues and interest income are reported as general revenues.

The statement of activities demonstrates the degree to which the direct expenses of a given function are offset by program revenues. Direct expenses are those clearly identifiable with a specific function. Program revenues consist of grants and contributions that are restricted to meeting operational or capital requirements of a particular function. Payments of other items not properly included as program revenues are reported as general revenues.
NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Fund Financial Statements
The financial transactions of the District are reported in individual funds in the fund financial statements. Each fund is accounted for by providing separate set of self-balancing accounts that comprises its assets, liabilities, deferred inflows of resources, fund balance, revenues and expenditures/expenses. Government resources are allocated to, and accounted for, in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled. The purposes of the District’s funds are as follows:

Governmental Fund

- General Fund – This fund is used to account for the accumulation and expenditure of resources that are not restricted in any manner but are used for general purposes of the District and do not require the establishment of any other type of fund.

Measurement Focus, Basis of Accounting, and Financial Statement Presentation
The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of the related cash flows.

Governmental fund financial statements are reported using the financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities for the current period. For this purpose, the District considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures are generally recorded when a liability is incurred, as under accrual accounting.

The District is a single program government, devoted to physical environment. It is comprised of a General Fund only and has no other governmental, proprietary or fiduciary funds. The General Fund is the general operating fund and accounts for all the resources of the District.

Budgetary Requirements
Under GASB No. 34, budgetary comparison information is required to be presented for the general fund and each major special revenue fund with a legally adopted budget. The District followed the procedures provided by Florida Statutes in establishing final budget balances reported on the financial statements:

- Budgets are prepared, public hearings are held, and original budgets are adopted annually for governmental fund types in accordance with procedures and time intervals prescribed by law.
NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Budgetary Requirements (Continued)

- Budgets are prepared for the governmental funds on a basis consistent with accounting principles generally accepted in the United States of America.

- Final budget amounts reported are based upon the final amended budget.

Net Position

Net position represents the difference between assets and liabilities. The District may report three categories of net position, as follows: investment in capital assets, restricted net position, and unrestricted net position. Investment in capital assets consist of net capital assets. Restricted net position represents constraints on resources that are either externally imposed by creditors, grantors, contributors, or laws or regulations of other governments or imposed by law through state statute. Unrestricted net position consists of all other net position that does not meet the definition of the other two components and are available for general use by the District. When both restricted and unrestricted resources are available for use, it is the District’s policy to use restricted resources first, then unrestricted as needed. At September 30, 2016, all net position was unrestricted.

Fund Balance and Spending Policy

In accordance with GASB Statement No. 54 – Fund Balance Reporting and Governmental Fund Type Definitions, which was implemented by the Board for the year ended September 30, 2011, governments are required to classify fund balance in governmental funds as nonspendable, restricted, committed, assigned, and unassigned.

- Nonspendable – amounts that cannot be spent either because they are in nonspendable form or because they are legally or contractually required to be maintained intact.

- Restricted – amounts that can only be spent only for specific purposes because of charter requirements or enabling legislation or because of constraints that are externally imposed by creditors, grantors, contributors, or the laws or regulations of other governments.

- Committed – includes amounts that can be used for specific purposes. Committed fund balance is reported pursuant to grant funds awarded and passed by the Board, the District’s highest level of decision making authority.

- Assigned – amounts that do not meet the criteria to be classified as restricted or committed but that are intended to be used for specific purposes. Under the District’s adopted policy, only the Board may assign amounts for specific purposes.

- Unassigned – includes amounts that have not been assigned to other funds or restricted, committed or assigned to a specific purpose.
NOTE 1  SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Fund Balance and Spending Policy (Continued)

The fund balance of the General Fund is classified as unassigned.

The Board has implemented fund balance and spending policies to clearly define the process for tracking the various classifications of fund balance. The policy states when an expenditure is incurred in which restricted, committed, assigned, or unassigned amounts are available to be used, the Board will first use restricted amounts, then committed amounts, then assigned amounts, and finally unassigned amounts.

Accounts Receivable, Net
Accounts receivable are shown at their net realizable value and reduced by an allowance for uncollectible accounts.

Use of Estimates
The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America, as applicable to government entities, requires management to make use of estimates that affect the reported amounts in the financial statements. Actual results could differ from estimates.

Unearned Revenue
Unearned revenues arise when resources are received by the government before it has a legal claim to them, as when grant monies are received prior to incurring qualified expenditures. Unearned revenue is reported as a liability on the balance sheet.

NOTE 2  DEPOSITS

Custodial credit risk is the risk that in the event of bank failure, the government’s deposits may not be returned to it.

At September 30, 2016, the carrying amount of the District's deposits was $220,486 and the balance per the bank was $224,403. The District's interest bearing bank balance is collateralized pursuant to Chapter 280, Florida Statutes. Under this Chapter, in the event of default by a participating financial institution, a qualified public depository, all participating institutions are obligated to reimburse the governmental entity for the loss.
NOTE 3  RISK MANAGEMENT

The District is exposed to various risks of loss related to torts, theft of assets, errors and omissions, and natural disasters. The District has not purchased any commercial insurance and currently retains the risk of any loss.

NOTE 4  RELATED PARTY TRANSACTIONS

Transactions with related parties for the fiscal year ended September 30, 2016 were as follows:

Two projects went through the approval process and qualified. The amounts were $8,548 and $2,401 that were paid as reimbursement to board members.

NOTE 5  CONCENTRATIONS

The District received a substantial portion of its revenues from various grants. Grant funding may be significantly impacted by budget allocations and, consequently, changes in that funding may affect the District’s operations. For the year ended December 31, 2016, the following entity provided more than 10% of total revenues:

<table>

NOTE 6  PRIOR PERIOD ADJUSTMENT

During the current year, it was determined that grant expenditures were overstated for the prior period. To correct this error, beginning fund balance and net position have been restated.
INDEPENDENT AUDITORS’ REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING  
AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL  
STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Board of Directors  
Hardee Soil and Water Conservation District  
Wauchula, Florida

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards issued by the Comptroller General of the United States, the financial statements of the governmental activities and the major fund of the Hardee Soil and Water Conservation District (District), as of and for the year ended September 30, 2016, and the related notes to the financial statements, which collectively comprise the District’s basic financial statements, and have issued our report thereon dated June 26, 2017.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity’s financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. We did identify certain deficiencies in internal control, described in the accompanying schedule of findings and questioned costs, that we consider to be material weaknesses. 2016-001 and 2016-002.
Compliance and Other Matters
As part of obtaining reasonable assurance about whether the District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under Government Auditing Standards.

Hardee Soil and Water Conservation District’s Response to Findings
The District’s response to the findings identified in our audit are described in the schedule of findings and responses. The District’s response was not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

Purpose of this Report
The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the result of that testing, and not to provide an opinion on the effectiveness of the entity’s internal control or on compliance. This report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the entity’s internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT AUDITORS’ REPORT ON COMPLIANCE WITH REQUIREMENTS THAT COULD HAVE A DIRECT AND MATERIAL EFFECT ON EACH MAJOR STATE PROJECT AND ON INTERNAL CONTROL OVER COMPLIANCE IN ACCORDANCE WITH CHAPTER 10.550, RULES OF THE AUDITOR GENERAL OF THE STATE OF FLORIDA

Board of Directors
Hardee Soil and Water Conservation District
Hardee County, Florida

Report on Compliance for Each Major State Project
We have audited Hardee Soil and Water Conservation District’s (the District) compliance with the types of compliance requirements described in the Florida Department of Financial Services State Projects Compliance Supplement that could have a direct and material effect on each of the District’s major state projects for the year ended September 30, 2016. The District’s major state projects are identified in the summary of auditors’ results section of the accompanying schedule of findings and questioned costs.

Management’s Responsibility
Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to each of its major state projects.

Auditors’ Responsibility
Our responsibility is to express an opinion on compliance for each major state project based on our audit of the types of compliance requirements referred to above. We conducted our audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States; and Chapter 10.550, Rules of the Auditor General. Those standards and Chapter 10.550, Rules of the Auditor General require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major state project occurred. An audit includes examining, on a test basis, evidence about the District’s compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major state project. However, our audit does not provide a legal determination of the District’s compliance with those requirements.

Opinion on Each Major State Project
In our opinion, the District complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major state projects for the year ended September 30, 2016.
Board of Directors
Hardee Soil and Water Conservation District

Report on Internal Control Over Compliance
Management of the District is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit, we considered the District's internal control over compliance with the types of requirements that could have a direct and material effect on each major state project to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major state project and to test and report on internal control over compliance in accordance with Chapter 10.550, Rules of the Auditor General, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the District's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a state project on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a state project will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a state project that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, we identified certain deficiencies in internal control over compliance, as described in the accompanying schedule of findings and questioned costs as item 2016-003, that we consider to be a significant deficiency.

The District’s response to the internal control over compliance findings identified in our audit are described in the accompanying schedule of findings and questioned costs. The District’s response was not subjected to the auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the response.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the result of that testing based on the requirements of Chapter 10.550. Accordingly, this report is not suitable for any other purpose.

NOTE 1  GENERAL

The accompanying Schedule of Expenditures of State Projects presents the activity of all state programs of Hardee Soil and Water Conservation District (District). The District is defined in Note 1 to the District’s basic financial statements for the year ended September 30, 2016.

NOTE 2  BASIS OF ACCOUNTING

The accompanying Schedule of Expenditures of State Projects is presented using the modified accrual basis of accounting for awards.
SECTION I – SUMMARY OF AUDITOR’S RESULTS

Financial Statements
Type of auditor’s report issued: Unmodified
Internal control over financial reporting:
  Material weakness: Yes
  Significant deficiencies identified not considered to be material weaknesses: None noted
  Noncompliance material to basic financial statements noted: No

State Projects
Internal control over major programs
  Material weaknesses identified: None noted
  Significant deficiencies identified not considered to be a material weaknesses: Yes
  Type of auditor’s report on compliance for major program: Unmodified

Any audit findings disclosed that are required to be reported in accordance with Uniform Guidance or Chapter 10.557, Rules of the Auditor General? No

Identification of major programs:

State Projects
  Agricultural Nonprofit Source Best Management Practices Implementation
  CSFA No.: 42.017

Dollar threshold used to determine Type A and Type B programs:
  State Projects: $300,000
  Auditee qualified as low-risk: No
SECTION II – FINANCIAL STATEMENT AUDIT

Material Weaknesses

2016-001 – PREPARATION OF FINANCIAL STATEMENTS

Condition: As part of the audit, management requested us to prepare a draft of the financial statements, including the related notes to the financial statements and the Schedule of Expenditures of State Projects. In addition, the District incorrectly posted expenditures when they cleared the bank instead of when the check was prepared.

Criteria: The District’s management is responsible for establishing and maintaining internal controls, including monitoring, and for the fair presentation of the financial statements in accordance with applicable accounting and reporting standards.

Effect: The design of the controls over the financial reporting process would affect the ability of the District to report their financial data consistently with the assertions of management in the financial statements.

Cause: The District has no employees and limited resources.

Recommendation: We recommend that the District management be aware of the responsibilities regarding financial reporting and continue to evaluate the cost/benefit of outsourcing this function. If management chooses to undertake these financial reporting responsibilities, personnel with training and experience in financial statement preparation will need to be hired and a number of policies, procedures, and reviews will need to be developed and implemented.

Response: The District is in the process of retaining outsourced accounting assistance.
SECTION II – FINANCIAL STATEMENT AUDIT (CONTINUED)

Material Weaknesses (Continued)

2016-002 – Material Audit Adjustment

Condition: Prior year expenditures were overstated which understated net position and fund balance.

Criteria: Beginning net position and fund balance were materially understated.

Effect: Beginning net position and fund balance were restated.

Cause: In the prior year, the District overstated expenditures. In the current year, the District had to restate beginning net position and fund balance. The District was incorrectly recording on the cash basis by recording expenditures when they cleared the bank account instead of when the disbursement was made.

Recommendation: We recommend either recording transactions on both the full accrual and modified accrual basis as presented in the financial statements or recording transactions properly on the cash basis.

Response: The District concurs.

SECTION III – STATE PROJECTS FINDINGS AND QUESTIONED COSTS

Significant Deficiency

2016-003 – GRANT REPORTING REVIEW

Condition: Specific grant reports are not being reviewed prior to submission.

Criteria: The District is responsible for the following:

- Maintaining internal controls over reports submitted to the grantor.

Effect: The District did review reports prior to submission.

Cause: The District did not implement an internal control of a review process.

Recommendation: We recommend implementing a review process for all reports submitted.

Response: The District concurs and is correcting.

BOARD OF DIRECTORS
Hardee Soil and Water Conservation District
Wauchula, Florida

Report on the Financial Statements
We have audited the financial statements of the Hardee Soil and Water Conservation District (District), Florida, as of and for the fiscal year ended September 30, 2016, and have issued our report thereon dated June 26, 2017.

Auditor's Responsibility
We conducted our audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States and Chapter 10.550, Rules of the Florida Auditor General.

Other Reports and Schedule
We have issued our Independent Auditor's Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with Government Auditing Standards; Independent Auditor's Report on Compliance with Requirements that could have a Direct and Material Effect on Each Major State Project and on Internal Control Over Compliance in Accordance with Chapter 10.550, Rules of the Auditor General of the State of Florida; Schedule of Findings and Questioned Costs; and Independent Accountant's Report on an examination conducted in accordance with AICPA Professional Standards, Section 601, regarding compliance requirements in accordance with Chapter 10.550, Rules of the Auditor General. Disclosures in those reports and schedule, which are dated, June 26, 2017, should be considered in conjunction with this management letter.

Prior Audit Findings
Section 10.554(1)(i)1., Rules of the Auditor General, requires that we determine whether or not corrective actions have been taken to address findings and recommendations made in the preceding annual financial audit report. See summary schedule of prior audit findings for status of significant findings and recommendations made in the preceding annual financial audit report.

Official Title and Legal Authority
Section 10.554(1)(i)4., Rules of the Auditor General, requires that the name or official title and legal authority for the primary government and each component unit of the reporting entity be disclosed in the management letter, unless disclosed in the notes to financial statements. See Note 1 in the Notes to Financial Statements.
Board of Directors
Hardee Soil and Water Conservation District

Financial Condition
Section 10.554(1)(i)5.a. and 10.556(7), Rules of the Auditor General, require that we apply appropriate procedures and report the results of our determination as to whether or not the District has met one or more conditions described in Section 218.503(1), Florida Statutes, and identification of the specific condition(s) met. In connection with our audit, we determined that the District did not meet any of the conditions described in Section 218.503(1), Florida Statutes.

Pursuant to Sections 10.554(1)(i)5.c. and 10.556(8), Rules of the Auditor General, we applied financial condition assessment procedures. It is management’s responsibility to monitor the District's financial condition, and our financial condition assessment was based in part on representations made by management and the review of financial information provided by the same.

Annual Financial Report
Section 10.554(1)(i)5.b. and 10.556(7), Rules of the Auditor General, require that we apply appropriate procedures and report the results of our determination as to whether the annual financial report for the District for the fiscal year ended September 30, 2016, filed with the Department of Financial Services pursuant Section 218.32(1)(a), Florida Statutes, is in agreement with the annual financial audit report for the fiscal year ended September 30, 2016. In connection with our audit, we determined that these two reports were in agreement.

Other Matters
Section 10.554(1)(i)2., Rules of the Auditor General, requires that we address in the management letter any recommendations to improve financial management. In connection with our audit, we did not have any such recommendations.

Section 10.554(1)(i)3., Rules of the Auditor General, requires that we address noncompliance with provisions of contracts or grant agreements, or abuse, that have occurred, or are likely to have occurred, that have an effect on the financial statements that is less than material but which warrants the attention of those charged with governance. In connection with our audit, we did not have any such findings.

Purpose of this Letter
Our management letter is intended solely for the information and use of the Legislative Auditing Committee, members of the Florida Senate and the Florida house of Representatives, the Florida Auditor General, Federal and other granting agencies, the Board of Directors, and applicable management, and is not intended to be and should not be used by anyone other than these specified parties.

We wish to take this opportunity to thank you for the cooperation and courtesies extended to us during the course of our audit. Please let us know if you have any questions or comments concerning this letter, our accompanying reports, or other matters.

INDEPENDENT ACCOUNTANTS’ REPORT

Board of Directors
Hardee Soil and Water Conservation District
Wauchula, Florida

We have examined the Hardee Soil and Water Conservation District (District), compliance with Section 218.415, Florida Statutes, regarding the investment of public funds during the year ended September 30, 2016. Management is responsible for the District's compliance with those requirements. Our responsibility is to express an opinion on District's compliance based on our examination.

Our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants. Those standards require that we plan and perform the examination to obtain reasonable assurance about whether the District complied, in all material respects, with the specified requirements referenced above. An examination involves performing procedures to obtain evidence about whether the District complied with the specified requirements. The nature, timing, and extent of the procedures selected depend on our judgment, including an assessment of the risks of material noncompliance, whether due to fraud or error. We believe that the evidence we obtained is sufficient and appropriate to provide a reasonable basis for our opinion.

Our examination does not provide a legal determination on the District's compliance with specified requirements.

In our opinion, the District complied, in all material respects, with Section 218.415, Florida Statutes, regarding the investment of public funds during the year ended September 30, 2016.

This report is intended solely for the information and use of the District and the Auditor General, State of Florida, and is not intended to be and should not be used by anyone other than these specified parties.
